ABOUT

- I am a sophomore in college who is searching for an internship opportunity in the area of data science or web development, preferably one that would allow me to put my analytical and problem-solving talents to use while also providing me with the opportunity to learn more about the business.

ACADEMIC DETAILS

Year	Degree/Exam	Institute	GPA/Marks(%)
Dec, 2021 -	B.TECH in Computer Science	Sri Vidyanikethan Engineering college	
2020	S.S.C	Narayana junior college	75.00 %
2018	S.S.C	Bhashyam E.M public school	97.00 %

PROJECTS

- **Sudoku Game and Solver**

- **Summary:** Developed a Python-based Sudoku game with an interactive user interface and implemented an efficient Sudoku solver algorithm.

- **Description:** Created a Sudoku game application that allows users to play and solve Sudoku puzzles. Developed an intuitive user interface using Pygame, providing a visually appealing and interactive experience. Implemented a Sudoku solver algorithm capable of solving puzzles of varying difficulties, showcasing strong problem-solving and algorithmic thinking skills. Utilized the NumPy library for efficient manipulation and analysis of Sudoku grids.

TECHNICAL SKILLS

- **Languages Python** (proficient), **Java** (proficient), **C** (proficient), **HTML**, **SQL**, **PHP**, **Java**.

SCHOLASTIC ACHIEVEMENTS

- **GTSE -** Secured Gold Medal in GTSE tallent exam
